3.

READING

Read the following passage and mark the letter A, B, C, or D to indicate the correct word or phrase that best fits each of the numbered blanks.

Infections are caused by bacteria or viruses. Those tiny organisms enter our bodies and impact the bodily functions. For some people who are suffering from illnesses like high blood pressure or cancer, infections seem (1) _____ if they are not extremely careful. According to Dr. Michael Klompas, though many viruses are deadly and easily-transmitted, following a few fundamental rules below can go a long way in (2) _____ infections.

The first principle should be understanding that viruses and bacteria enter our body through openings including our noses and mouths, etc. The most effective way to stop the infections is to block these ways. If we are unwell, try not to have close (3) _____ with other people and cover our coughs to stop spreading the illnesses to other people.

The second equally important rule is to get vaccinated if you are to stay away from illnesses. (4) _____ vaccines may cause some side effects, they are generally safe and effective.

One more way to protect yourself from getting sick is applying good food-safety techniques. Some simple techniques might involve rinsing all raw food under running water before cooking, washing your hands (5) _____ soap and water, and separating raw food and cooked food.
