Blank (27)

Part 2. Reading Comprehension (1.68 points)

Read the text about future careers and technology, then choose the best answer.

The world of work is changing rapidly due to new technology. In the past, people often stayed in one job for their whole lives. Today, young people might change careers five or six times. Electronic devices like smartphones and laptops allow many people to work from home. This is called 'remote work'.

Furthermore, some jobs are becoming more popular while others are disappearing. For example, there is a high demand for data analysts and app developers. On the other hand, machines are starting to do repetitive tasks in factories. To prepare for the future, students should not only learn facts but also develop 'soft skills' like communication, teamwork, and problem-solving. These are skills that robots cannot easily copy.

Why is the world of work changing?

- A. Because people are lazier. B. Due to new technology. C. Because there are no more jobs. D. Because schools are closed.

What does 'remote work' mean?

- A. Working in a factory. B. Working from home using devices. C. Working in a remote forest. D. Working without any technology.

Which job is in high demand according to the text?

- A. Factory worker B. App developer C. Traditional farmer D. Machine operator

What are 'soft skills'?

- A. Skills like using a hammer. B. Skills like coding and math. C. Skills like teamwork and communication. D. Skills related to making soft materials.

Why should students develop soft skills?

- A. Because they are easy to learn. B. Because robots cannot easily copy them. C. Because they don't need to go to school. D. Because they are only for rich people.

What is the main idea of the passage?

- A. Technology is bad for workers. B. How to use a smartphone for work. C. The impact of technology on future careers. D. Why robots are better than humans.
