Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 1 to 5.

Finding the right career path often involves a combination of self-reflection and practical exploration. While some individuals have a clear vision of their future from a young age, many find themselves (1) _____. We must consider which skills we possess and whether there is a sustainable demand for those talents in the evolving job market.

Some professionals, however, thrive on change and intentionally seek roles that offer variety and constant learning, as this provides a sense of personal growth, (2) _____. Others prefer stability and will carefully avoid industries known for high turnover rates. Naturally, the stability of a chosen field will be a major concern. (3) _____. The risk-averse individual will often seek employment in established sectors such as education or public service, valuing long-term security over high-stakes rewards.

(4) _____. There is evidence that much of the anxiety felt by young jobseekers can be attributed to the overwhelming amount of conflicting advice found online, and in part, (5) _____ regarding the future of work.

(Adapted from Careers in the Modern Age)

Question 1.

- A. unsure of which direction to take initially
- B. where the choices are certainly made clearly
- C. until they find what they exactly want
- D. being confused about the path until seeing it

Question 2.

- A. but do not want any professional challenges
- B. if the routine of work itself is not a burden
- C. so the uncertainty of a role is not a deterrent
- D. and work life does not present any difficulties

Question 3.

- A. As a result, there will be less focus on the salary than on the passion for the job
- B. Similarly, the pressure of a high-paced job will be much higher than that of a steady one
- C. As previously noted, the importance of security will be greater for some than for others
- D. Employees, by contrast, will be far less interested in the benefits than in the location

Question 4.

- A. Careers are also built by choosing mentors without high expectations
- B. Professionals also manage their growth by selecting roles without stress
- C. Career satisfaction is also a factor in the methods used to find employment
- D. Also, the strategies individuals use to plan their careers are varied

Question 5.

- A. the uncertainty that information from the internet will be useful
- B. due to the internet, through which misleading data is shared
- C. the confusing news received via social media will be doubtful
- D. thanks to the diverse perspectives provided by the online sources

Read the passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 6 to 13.

Artificial Intelligence (AI) is transforming the healthcare sector by providing tools that assist doctors in diagnosing diseases more accurately and quickly. Advanced algorithms, such as those used in medical imaging, are trained to detect patterns that might be missed by the human eye. Furthermore, AI-powered systems can analyze vast amounts of patient data, from genetic records to lifestyle habits, to **accelerate** the development of personalized treatment plans that improve patient outcomes while reducing costs.

Wearable technology allows patients to track their health metrics, such as heart rate and sleep patterns, in real-time. This data is transmitted to healthcare providers, ensuring that potential issues are identified early. By monitoring patients remotely, clinics can increase their efficiency. Health sensors provide continuous updates, which helps **curb** unnecessary hospital visits and save resources for emergencies.

AI also plays a critical role in drug discovery. Traditional methods of developing new medications are time-consuming and expensive. AI models can simulate how different drugs interact with the body, predicting their effectiveness and safety before clinical trials begin. On a larger scale, **this technology ensures research projects remain financially viable**.

The integration of AI does not stop at diagnosis. Virtual health assistants are being used to answer patient queries, schedule appointments, and remind individuals to take their medication. These systems use natural language processing to understand and respond to human speech. This allows healthcare professionals to focus on more complex tasks, planning for long-term patient care and system improvements.

Question 6. Which of the following is NOT mentioned in paragraph 1 as a type of data AI can analyze?

- A. genetic records B. lifestyle habits C. financial history D. medical images

Question 7. The word **accelerate** in paragraph 1 can be best replaced by _____.

- A. slow down B. speed up C. monitor D. evaluate

Question 8. The word **curb** in paragraph 2 is OPPOSITE in meaning to _____.

- A. increase B. limit C. manage D. prevent

Question 9. The word **their** in paragraph 3 refers to _____.

- A. clinical trials B. simulations C. AI models D. different drugs

Question 10. Which of the following best paraphrases the underlined sentence in paragraph 3?

- A. AI prevents research from becoming too expensive to continue.
B. Research projects in medicine are always profitable because of AI.
C. AI helps researchers find new ways to spend their project budgets.
D. Using AI is the only way to make medical research successful.

Question 11. Which of the following is TRUE according to paragraph 4?

- A. AI systems have completely replaced healthcare professionals in clinics.
B. Virtual assistants help doctors by handling routine administrative tasks.
C. Natural language processing is only used for scheduling appointments.
D. Healthcare professionals no longer need to plan for long-term care.

Question 12. Which paragraph mentions the use of AI in predicting drug effectiveness?

- A. Paragraph 1 B. Paragraph 4 C. Paragraph 3 D. Paragraph 2

Question 13. Which paragraph mentions an advantage for patients in terms of early detection?

- A. Paragraph 2 B. Paragraph 3 C. Paragraph 1 D. Paragraph 4

Mark the letter A, B, C or D on your answer sheet to indicate the best arrangement of utterances or sentences to make a cohesive and coherent exchange or text in each of the following questions from 14 to 18.

Question 14.

- a. Urbanisation has led to the rapid expansion of many cities, creating both opportunities and challenges.
- b. These developments have improved connectivity, making it easier for people to commute.
- c. However, this growth has also put immense pressure on housing and public services.
- d. To address these issues, city officials are investing in sustainable infrastructure and green spaces.
- e. Over the last decade, the city has seen a significant increase in high-rise buildings and modern transport systems.

A. a – e – b – c – d B. e – d – b – c – a C. a – c – e – b – d D. e – a – c – d – b

Question 15.

- a. **Mark:** Social media is great for staying connected, but it can also be quite distracting.
- b. **Sophie:** I agree! I find myself scrolling for hours when I should be studying.
- c. **Mark:** Exactly. Have you ever tried setting a time limit on your apps?
- d. **Sophie:** I have, and it really helps me focus on my work.
- e. **Mark:** That's a good idea; I think I'll start doing that too.

A. a – b – c – d – e B. b – a – c – e – d C. a – c – b – d – e D. c – b – e – a – d

Question 16.

- a. **An:** Excuse me, can you tell me how to get to the vocational training center?
- b. **Binh:** Of course! Go straight until you reach the main intersection, then turn left.
- c. **An:** Thank you so much for your help!

A. c – a – b B. a – b – c C. b – a – c D. a – c – b

Question 17.

- a. This experience, as a result, made me realize how much effort goes into wildlife conservation.
- b. It was hard work, but seeing the animals recover made every minute worth it.
- c. I had to spend hours cleaning enclosures and preparing food for the rescued turtles.
- d. Volunteering at the nature reserve for a month was physically exhausting but deeply rewarding.
- e. I am now more determined than ever to pursue a career in environmental science.

A. d – c – b – a – e B. a – b – c – d – e C. d – b – a – c – e D. c – d – b – e – a

Question 18.

Dear Team,

- a. We are writing to inform you that our office will be implementing a new flexible working policy starting next month.
- b. This change aims to improve work-life balance and overall productivity.
- c. Please review the attached document for the full details and eligibility criteria.
- d. If you have any questions, feel free to contact the HR department.
- e. We believe this initiative will foster a more positive and inclusive work environment.

Best regards,

Management

A. a – e – b – d – c B. a – b – e – c – d C. b – a – e – d – c D. e – a – b – c – d

Read the passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 19 to 28.

We are currently witnessing a global shift towards "urban greening" – the intentional integration of nature into city landscapes. Imagine a metropolis where skyscrapers are draped in vertical forests and rooftops are converted into **vibrant** community gardens. True urban greening would require more than just planting a few trees; it would demand a complete rethinking of urban planning, substantial investment, and a long-term commitment from both the public and private sectors.

The trend has gained momentum recently. Many cities now boast "eco-corridors" that connect fragmented parks, providing habitats for local wildlife. [I] However, critics argue that some projects are merely "greenwashing" for luxury developments – a way to increase property values while doing little for the actual environment. This practice has become so common that regulators are now looking for ways to ensure green projects provide real ecological benefits. **They** are currently establishing stricter guidelines to prevent misleading environmental claims.

Why does this matter? Urban greening is not just about aesthetics; it is a vital strategy for climate resilience. [II] Large cities often suffer from the "urban heat island" effect, where concrete surfaces absorb and radiate heat, making cities significantly warmer than surrounding rural areas. [III] By introducing vegetation, cities can lower temperatures, improve air quality, and reduce the risk of flooding during heavy rains. [IV] Urban greening thus acts as a natural cooling system, protecting citizens from the increasing frequency of heatwaves. **Exposing the lack of genuine biodiversity in some of these projects is essential if we are to achieve true sustainability.**

(Adapted from <https://www.theguardian.com>)

Question 19. According to paragraph 1, true urban greening _____.

- A. only involves planting trees in local parks
- B. requires a total redesign of city planning
- C. is primarily the responsibility of individuals
- D. can be achieved without major investment

Question 20. Which of the following best summarises paragraph 1?

- A. The vision of green cities requires deep structural changes and high investment.
- B. Vertical forests are the most effective way to improve the urban environment.
- C. Community gardens are becoming more popular than traditional city parks.
- D. Urban greening is a simple process that most modern cities have already completed.

Question 21. Which of the following is NOT mentioned as a benefit of urban greening?

- A. lowering city temperatures
- B. improving air quality
- C. reducing the cost of luxury housing
- D. providing wildlife habitats

Question 22. The word **vibrant** in paragraph 1 mostly means _____.

- A. quiet and peaceful
- B. expensive and rare
- C. lively and full of energy
- D. dark and crowded

Question 23. The word **They** in paragraph 2 refers to _____.

- A. eco-corridors
- B. local wildlife
- C. green projects
- D. regulators

Question 24. Which of the following best paraphrases the underlined sentence in paragraph 3?

- A. It is necessary to reveal when green projects lack variety to ensure they are truly eco-friendly.
- B. Biodiversity is not as important as sustainability when planning new city developments.
- C. True sustainability can only be achieved by increasing the number of luxury green projects.
- D. Many green projects fail because they focus too much on biodiversity instead of aesthetics.

Question 25. According to the passage, the "urban heat island" effect is mentioned as _____.

- A. a reason why people are moving back to rural areas
- B. a challenge that urban greening can help solve
- C. a natural cooling system used in modern skyscrapers
- D. a result of having too many vertical forests in a city

Question 26. Which of the following can be inferred from the passage?

- A. Most green projects in cities today are primarily focused on increasing property value.
- B. Without regulation, some urban greening efforts may provide more image than impact.
- C. The public sector is the only group capable of investing in urban greening projects.
- D. Urban greening has successfully eliminated the threat of heatwaves in major cities.

Question 27. Where in the passage does the following sentence best fit?

"Yet, the effectiveness of these corridors is often limited by their small size."

- A. [I]
- B. [II]
- C. [III]
- D. [IV]

Question 28. Which of the following best summarises the passage?

- A. Urban greening is a vital but complex strategy that must go beyond superficial efforts to be effective.
- B. The main goal of modern urban planning is to create luxury housing that looks environmentally friendly.
- C. Cities are becoming significantly warmer, and the only solution is to move to surrounding rural areas.
- D. Vertical forests and rooftop gardens have become the primary focus of all global construction companies.

Read the following announcement and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 29 to 34.

Workshop on Artificial Intelligence 2025 – Shaping Our Future

Taking place from October 15th to 17th at the City Innovation Hub, the AI Workshop 2025 will showcase over 50 expert sessions (29) _____ are led by pioneers from global tech hubs alongside Vietnam’s (30) _____ research institutions.

Attendees will gain exposure to a wide (31) _____ of topics, including machine learning, ethics in AI, and robotics, (32) _____ cutting-edge technologies and real-world applications. The event will also feature live coding demonstrations and insightful (33) _____ by renowned scientists and developers, offering a deeper understanding of future trends.

This workshop is a unique opportunity for (34) _____ students, professionals, and tech enthusiasts to discover emerging career paths and network with industry leaders. Don’t miss this chance to be part of the AI revolution!

For more information, visit <https://ai-workshop.vnjie.com/>.

- Question 29.** A. who B. which C. whom D. whose
Question 30. A. leading B. following C. moving D. catching
Question 31. A. range B. deal C. number D. amount
Question 32. A. blend B. blending C. to blend D. blended
Question 33. A. discussions B. discuss C. discussers D. discursive
Question 34. A. both B. either C. neither D. whether

Read the following leaflet and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 35 to 40.

Cultivating Cultural Sensitivity in the Workplace

In our multicultural world, understanding and respecting different backgrounds is (35) _____ to a productive work environment:

- **Be Aware of Communication Styles:** Some cultures are direct, (36) _____ others may use more subtle or indirect language.
- **Acknowledge Traditions:** Take every opportunity to learn about (37) _____ holidays or customs that your colleagues might observe.
- **Practice Active Listening:** Invite colleagues to share (38) _____ perspectives and try (39) _____ how their cultural background influences their viewpoint.
- **Show Respect:** Treat every interaction as a chance to learn (40) _____ about the world and build stronger professional relationships.

- Question 35.** A. essential B. secondary C. optional D. trivial
Question 36. A. so B. but C. and D. while
Question 37. A. various B. varying C. varied D. variety
Question 38. A. another B. others C. their D. other
Question 39. A. to understand B. understanding C. understand D. understood
Question 40. A. much B. more C. most D. many
