Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 23 to 26.

Although a good web designer needs to have many skills, these are the most important ones that every company is looking for in a candidate.

IT skills

Because building a website requires constant interaction with computers, web designers must have excellent IT skills as well as creativity. To use programming software effectively, they must have a high level of technical knowledge.

Problem-solving skills

While web designers are working on a project, there will be many mistakes made before they create a perfect website. They will always have to suggest effective solutions as soon as possible. Therefore, to a web designer, improving problem-solving skills is very important.

Time-management skills

Building a website takes a lot of time, but a web designer needs to meet hard deadlines. It is necessary to balance working and relaxing time in order to meet deadlines while remaining healthy.

Communication skills

A successful web designer needs to have strong communication skills. To understand project requirements and ensure the final product meets expectations, they need to effectively communicate with coworkers and clients. Also, good communication skills contribute to a positive working environment.

23. What does the word ones in line 2 refer to?

- A. web designers B. companies C. candidates D. skills

24. Why do web designers need to have IT skills?

- A. Because they have to work with programming software.
B. Because they have to work with other web designers.
C. Because they have to create websites about technical knowledge.
D. Because they have to build computers.

25. What do web designers have to do when there are mistakes?

- A. They build a website to fix the mistakes. B. They find a solution quickly.
C. They improve their problem-solving skills.
D. They work on the project as soon as possible.
