Read the following passage about Augmented reality and mark the letter A, B, C, or D to indicate the correct answer to each of the questions from 18 to 27.

[I] Augmented reality (AR) is transforming the way we learn, work, and play by blending digital content with the physical world. [II] AR is making waves in education, gaming, and even social interactions, promising a future where technology feels more integrated into our daily lives. [III] Very soon, AR could revolutionize every aspect of how we interact, with information and entertainment, making the virtual world seem as real as the one around us.

[IV]

In education, AR is proving to be a powerful tool for engagement and understanding. Students can now explore a 3D model of the solar system in their classrooms or dissect a virtual frog without harming a real one. These experiences bring lessons to life, making complex topics easier to grasp. AR also **fosters** creativity, encouraging students to think outside the box and engage with their studies in new ways. With AR, learning is no longer confined to textbooks and lectures. **It** allows students to start strong and immediately apply what they learn, helping them dive into real-world scenarios with ease.

The entertainment industry is another area which AR has a significant impact on. Games like Pokémon Go have shown how AR can create immersive, real-world experiences that capture the imagination of millions. In the future, AR could revolutionize how we watch movies, attend concerts, or even try on clothes while shopping

online. Imagine sitting in your living room and having a holographic performance appear right before your eyes. AR can also **break the mold**, introducing groundbreaking ways to entertain audiences and keep them engaged like never before. The possibilities are endless.

AR is truly a golden opportunity to reshape our interaction with the world. However, like any new technology, it comes with challenges. Developers and educators must ensure that AR is accessible, user-friendly, and free from misuse. **With thoughtful innovation, AR has the potential to become a game-changer in both education and entertainment, bridging the gap between imagination and reality.**

D. AR overlays virtual objects onto real environments, transforming education, gaming, and entertainment, enhancing engagement, creativity, and real-world application despite challenges in accessibility and misuse.

Read the following passage about the iPhone 17 and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

Apple's iPhone 17 has quickly attracted worldwide attention. At first glance, its design may look familiar, but the phone is slimmer, lighter, and built with more recycled materials. Apple presents this as evidence of its commitment to sustainability, showing how the company responds to consumer concerns about the environment.

The new device also introduces stronger artificial intelligence features. These include instant translation, smarter photo organization, and predictive text that adapts to each user's style. Apple **stresses** that most processing is done on the phone itself to protect privacy. Supporters welcome these tools as practical and time-saving, while critics question how much control users truly have over their data.

Battery performance has seen a clear improvement. Thanks to a redesigned cooling system, the iPhone 17 operates more efficiently and lasts nearly 20 percent longer than the iPhone 16. Reviewers, especially gamers and professionals, praise this change because **it** reduces overheating and extends daily use. Combined with faster wireless charging, the upgrade shows Apple's attempt to answer long-standing customer complaints.

Security has also advanced with a dual biometric system combining facial recognition and voice authentication. **Apple describes this as a stronger barrier against identity theft.** Some users worry it may be difficult to set up or fail in noisy places. Even with such **doubts**, initial sales have been strong in more than 40 countries, particularly in Asia. This suggests that Apple's effort to combine innovation, sustainability, and safety is gaining wide acceptance in the global market.

Dịch bài đọc 10 câu

[I] Công nghệ thực tế tăng cường (AR) đang thay đổi cách chúng ta học tập, làm việc và giải trí bằng cách kết hợp nội dung kỹ thuật số với thế giới thực.

[II] AR đang tạo nên làn sóng lớn trong giáo dục, trò chơi điện tử, và cả các tương tác xã hội, hứa hẹn một tương lai nơi công nghệ hòa nhập sâu hơn vào cuộc sống hằng ngày.

[III] Trong tương lai gần, AR có thể cách mạng hóa mọi khía cạnh của việc con người tương tác với thông tin và giải trí, khiến thế giới ảo trở nên chân thực như thế giới xung quanh chúng ta.

[IV] Trong giáo dục, AR đang chứng tỏ là một công cụ mạnh mẽ giúp học sinh hứng thú và hiểu bài sâu hơn. Giờ đây, học sinh có thể khám phá mô hình 3D của hệ Mặt Trời ngay trong lớp học hoặc mô phỏng một con ếch mà không gây hại đến sinh vật thật.

Những trải nghiệm này làm cho bài học trở nên sinh động, giúp những chủ đề phức tạp trở nên dễ hiểu hơn. AR

còn khuyến khích sự sáng tạo, giúp học sinh nghĩ khác đi và tiếp cận việc học theo những cách mới mẻ. Với AR, việc học không còn bị giới hạn trong sách giáo khoa hay bài giảng.

Nó cho phép học sinh bắt đầu mạnh mẽ và áp dụng ngay những gì học được, giúp họ dễ dàng tiếp cận các tình huống thực tế.

 Ngành giải trí cũng là một lĩnh vực mà AR tác động mạnh mẽ. Những trò chơi như Pokémon Go đã cho thấy AR có thể tạo ra những trải nghiệm chân thực và hấp dẫn trong thế giới thật, thu hút trí tưởng tượng của hàng triệu người.

Trong tương lai, AR có thể thay đổi cách chúng ta xem phim, tham dự hòa nhạc, hoặc thậm chí thử quần áo khi mua sắm trực tuyến. Hãy tưởng tượng bạn ngồi ngay trong phòng khách và một buổi biểu diễn dạng hình ba chiều xuất hiện trước mắt bạn. AR còn có thể phá vỡ mọi khuôn mẫu cũ, giới thiệu những cách thức giải trí đột phá, giúp khán giả tương tác và say mê hơn bao giờ hết.
