Question 30. A. While B. Because C. Thus D. After

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions from 31 to 36.

Renewable Energy Solutions

As climate change becomes an increasing concern, more countries are investing in renewable energy solutions. Renewable energy, which comes from natural sources like sunlight, wind, and water, does not produce harmful emissions, making it an

environmentally friendly option. Solar power, wind energy, and hydropower are among the most commonly used renewable energy sources today.

Switching to renewable energy has numerous **advantages**. It reduces greenhouse gas emissions, decreases air pollution, and helps countries become less dependent on fossil fuels. However, there are also challenges associated with renewable energy. For example, solar and wind energy depend on weather conditions, which can be unpredictable. Additionally, the initial setup costs for renewable energy infrastructure can be high.

Despite these challenges, renewable energy continues to gain popularity as people become more aware of the need to protect the environment. Countries are working together to promote clean energy initiatives and reduce their carbon footprints.

Question 31. What is the main topic of the passage?

- A. The effects of fossil fuels on the environment
- B. The advantages and challenges of renewable energy
- C. The popularity of electric cars
- D. The need for new weather prediction technology

Question 32. Why is renewable energy considered environmentally friendly?

- A. It does not rely on natural sources.
- B. It does not produce harmful emissions.
- C. It is cheaper than other energy sources.
- D. It requires less equipment to produce.

Question 33. what is one challenge of using solar and wind energy?

- A. They are harmful to the environment.
- B. They are only used in certain countries.
- C. Their availability depends on the weather.
- D. They are more reliable than fossil fuels.

Question 34. The word **advantages** in the second paragraph is closest in meaning to ____.

- A. drawbacks
- B. concerns
- C. benefits
- D. problems

Question 35. What can be inferred about the future of renewable energy?

- A. It will likely replace fossil fuels almost entirely.
- B. It will decrease in popularity.
- C. It will continue to be developed and improved.
- D. It will only be used in specific regions.

Question 36. According to the passage, what is one reason countries are

motivated to invest in renewable energy?

- A. To reduce dependence on unpredictable weather.
- B. To minimise reliance on fossil fuels.
- C. To increase the usage of electric vehicles.
- D. To replace all forms of energy with solar power.

Mark the letter A, B, C, or D on your answer sheet to indicate the correct arrangement of the sentences to make a meaningful paragraph / letter in each of the following questions.

Question 37.

- a. For example, using a planner can help keep track of tasks.
- b. Developing strong study habits can improve academic performance.
