Our Recycling Project

Jackson Harris, January 30

Last Thursday, my class learned about what we can do with things we normally throw away, like plastic bottles. Afterwards, our teacher asked us to make something useful out of trash and show the class on Monday. I made toys out of toilet paper rolls. I painted the paper rolls and added eyes, hair, and hats. My favorite toy is a silly monster with four eyes. I gave one (a cute witch) to my little sister. My friend, Riley, reused cans and plastic cups to make plant pots. She painted and drew eyes for them to make them look like rabbits and cats. I thought recycling would be boring but it is not. This project was really fun and useful. I did not know that we can make so many things from trash.

19. When did Jackson learn about recycling?

II. Read the text and decide the statements are True (T) or False (F)

Adidas has created a sports shoe from garbage floating in the ocean. The new trainer is part of a project to raise awareness of the serious problem of ocean pollution. Adidas has joined forces with an organisation called Parley, which is dedicated to protecting and preserving the Earth's oceans. Parley's founder Cyril Gutsch spoke about his organisation's cooperation with Adidas. He said: "Our objective is to boost public awareness and to inspire new collaborations that can contribute to protect and preserve the oceans. We are extremely proud that Adidas is joining us in this mission...to show that it is possible to turn ocean plastic into something cool."

Garbage in the ocean is a huge problem. UNESCO estimates that in 2006, there were nearly 30,000 pieces of floating plastic for every square kilometre of ocean. Plastic debris kills over a million seabirds and 100,000 marine mammals every year. Adidas used some of this plastic to make its new trainer. The sole of the sneaker is made from sustainable materials, while the upper uses recycled ocean waste. This consisted of plastic and illegal fishing nets. Adidas says it will be releasing a new trainer made from ocean waste later this year. In another green initiative, the sportswear maker said it would be phasing out the use of plastic bags in all Adidas retail stores in the near future.
