Part 6. Reading Comprehension (2.25 points)

Read the passage and choose the correct answer A, B, C, or D.

The role of teachers is changing in the 21st century. In the traditional classroom, the teacher was the only source of knowledge, and students just listened and took notes. Today, with the help of technology, students can find information easily on the Internet. Therefore, the teacher's role has shifted from being a 'lecturer' to a 'facilitator'.

A facilitator is someone who helps students learn by guiding them and encouraging them to think for themselves. Instead of just giving answers, teachers now ask questions that make students solve problems. They also help students develop soft skills like teamwork and communication, which are very important for their future careers. Classrooms are becoming more student-centered, where students play an active role in their own learning process.

What was the teacher's role in a traditional classroom?

A. A facilitator B. The only source of knowledge C. A student D. A technician

What has helped students find information easily today?

A. Traditional books B. Technology and the Internet C. Only teachers D. Old notes

What does a 'facilitator' do?

A. Gives all the answers B. Only takes notes C. Guides and encourages students D. Lectures all day

Which skills are mentioned as important for future careers?

A. Soft skills like teamwork B. Only math skills C. Drawing skills D. Singing skills

What is the main idea of the passage?

A. The history of schools B. The changing role of teachers C. How to use the Internet D. The importance of teamwork

In a student-centered classroom, students are _____.

A. passive B. active C. bored D. quiet

According to the text, teachers now ask questions to _____.

A. make students solve problems B. punish students C. waste time D. show off knowledge

The word 'shifted' in the passage is closest in meaning to _____.

A. stayed B. changed C. stopped D. started
