VII. Read the following passage and write the letter A, B, C or D in the given numbered spaces to indicate the correct answer to each of the questions. (8 pts)

Those parts that are not tend to wither away. It is an observed fact that when you exercise particular muscles, they grow. Those that are never used diminish. By examining a man's body, we can tell which muscles he uses and which he doesn't. We may even be able to guess his profession or his reaction. Enthusiasts of the "body-building" cult make use of the principle of use and disuse to "build" their bodies, almost like a piece of sculpture, into whatever unnatural shape demanded by fashion in this peculiar minority culture. Muscles are not the only parts of the body that respond to use in this kind of way. Walk barefoot and you acquire harder skin on your soles. It is easy to tell a farmer from a bank teller by looking at their hands alone. The farmer's hands are horny, hardened by long exposure to rough work. The teller's hands are relatively soft.

The principle of use and disuse enables animals to become better at the job of surviving in their world, progressively better during their lifetime as a result of living in that world. Humans, through direct exposure

to sunlight, or lack of it, develop a skin color which equips them better to survive in the particular local conditions.

Too much sunlight is dangerous. Enthusiastic sunbathers with very fair skins are <u>susceptible</u> to skin cancer. Too little sunlight, on the other hand, leads to vitamin-D deficiency and rickets. The brown pigment melanin, which is synthesized under the influence of sunlight, makes a screen to protect the underlying tissues from the harmful effects of further sunlight. If a suntanned person moves to a less sunny climate, the melanin disappears, and the body is able to benefit from what little sun there is. This can be represented as an instance of the principle of use and disuse: skin goes brown when it is "used", and fades to white when it is not.

- 1. What does the passage mainly discuss?
- A. How the principles of use and disuse change people's concepts of themselves.
- B. The way in which people change themselves to conform to fashion.
- C. The changes that occur according to the principle of use and disuse.
- D. The effects of the sun on the principle of use and disuse.

2. The phrase "wi	ther away" in paragraph 1 is C	LOSEST in meani	ng to	
A. split	B. rot	C. perish	D. shrink	
3. The word "The	ose" in paragraph 1 refers to	A Committee of the Comm		
A. organisms	B. bodies	C. parts	D. muscles	
4. From the passa	ge, it can be inferred that author	views body build	ing	
A. with enthusias	m	B. as an artistic	form	
C. with scientific	interest	D. of doubtful benefit		
5. It can be inferr	ed from the passage that the prin	nciple of use and d	isuse enables organisms to	
A. change their existence		B. automatically benefit		
C. survive in any condition		D. improve their lifetime		
6. The author sug	gests that melanin			
A. is necessary for	r the production of vitamin-D	B. is beneficial	in sunless climates	
C. helps protect fair-skinned people		D. is a synthetic product		
7. In the third par	agraph, the author mentions sun	tanning as an exa	mple of	
A. humans impro	ving their local condition	B. humans survi	iving in adverse conditions	
C. humans using the principle of use and disuse		D. humans running the risk of skin cancer		
8. The word " sus	ceptible" in paragraph 3 is OPI	POSITE in the mea	aning to	
A. vulnerable	B. resistant	C. allergic	D. suggestible	
VIII Read the to	ext carefully then do the tasks	that follow (10 r	ite)	

Secret Millionaire is a reality TV show with a difference. The participants come on the programme to possibly give away thousands of pounds.

SECRET MILLIONAIRE

In the programme, millionaires go undercover to deprived areas of Britain, where they volunteer in the local community. For a fortnight they give up their affluent lifestyle and live with little money in substandard accommodation. Their experience often prompt them to hand over life-changing sums of money to deserving individuals and institutions. At the end, they reveal who they actually are.

There have been eight series of the programme in the UK so far with millions of pounds being given away to good causes. While watching the programmes, it's sometimes hard to tell who is benefiting most from the relationship. All of the people involved have talked about how it has changed their lives. But interestingly, it seemed that it was the millionaires who found their experiences the most rewarding. Some discovered that there are more important things in life than making money, and forged lasting relationships with the people they met.

A. HILARY DEVEY, who, as a single mother, risked everything to start up a now hugely successful transport company, lives on her own in her enormous mansion. She returned incognito to the place she grew up in, and one of the projects she got involved in was a local community support centre which was in danger of closing. The centre provides marriage counselling, support for single parents and homeless people and so on. She

funded the centre and provided more facilities for it. Hilary is still a regular visitor to the centre, and feels she now has friends who value her for the person she is, not her money.

- B. NICK LESLAU is one of Britain's wealthiest property tycoons and lives in luxury with his family in London. He went to Glasgow and worked in a poor area with severely disabled people. He was astonished at how friendly and kind everyone was, even though they didn't know anything about him. Although he has always donated money to various charities, he found it immensely rewarding to get involved directly for once. He said he felt privileged to have met some of society's genuine heroes people who work tirelessly to help others.
- C. KAVITA OBEROI is a 38-year-old IT millionaire whose sole interest in life, apart from her family, was making money. Her views completely changed when she went to a centre for disadvantaged girls in Manchester. She used to believe that people were poor because they didn't try to improve their lives. When she got involved with the girls' centre, she realised that people often need help and support to do their best.

She realised that her own mother had sacrificed a lot so that Kavita could have a good education. Kavita became a director of the group and is helping it to go national to support more young women.

D. JAMES BENAMORE, a tough financial dealer now worth £77 million, used to have a drug problem himself. He waved goodbye to his wife and children and went to a crime-ridden area of Manchester. He worked in a centre for teenagers who were excluded from mainstream education and found that they had no confidence in themselves, nor any belief that any effort they made would make any difference. James donated money to the centre so that children who worked hard earned rewards in the form of trips and outings. He also offered some teenagers a month's work experience at his company. He was delighted to see how their attitudes changed, and has set up the scheme permanently.

Read the instruction to the text and decide whether the following sentences (from questions 1 to 5) are TRUE (T) or FALSE (F):

Questions	Sentences	Your answers
1.	The people who meet the millionaires know that they are rich straight away.	
2.	The millionaires have to live differently for a while.	
3.	The millionaires have to donate lots of money.	
4.	The socially disadvantaged people benefit more than the rich people in the programme.	
5.	The millionaires don't stay in touch with the people they meet.	

Read the texts A-D and match them to the questions from 6 to 10 below (Number 0 has been done for you as an example)

Questions	Which millionaire	Your answers
0.	had to overcome addiction problems in his/her youth?	_D
6.	met young people who believed they were unable to improve their lives?	_
7.	had changed his/her opinions by the end of the programme?	
8.	found it was better to get involved rather than just donate money?	
9.	went back to his/her hometown?	
10.	was surprised that people who didn't know him/her were so nice to him/her?	_

IX. Match the headings (A-G) with paragraphs 1-5 in the text. There are two extra headings that you do not need. (5 pts)

- A. Artificial intelligence
- B. The future of entertainment
- C. Shopping in the 25th century
- D. A multimedia experience
- E. Half human, half machine
- F. Homes of the future
- G. Science fiction films of the future

INTO THE FUTURE
1 A new exhibition at the Museum of Liverpool opens on July 1 st . It looks at current trends in four different areas and asks where they are heading. It includes videos, interactive displays and virtual reality exhibits.
2 Computers are becoming more and more powerful each year. Will they soon be more intelligent
than people? If the answer is yes, then how will that change our relationship with computers? Might there be dangers for the human race? This part of exhibition explores this question and other related issues.
3 What will the kitchen of the future look like? Will domestic robots finally become a reality? In this
part of the exhibition you can find out what day-to-day life may be like fifty years from now. From a fridge
that does your shopping online, to a wardrobe that tells you what to wear, it seems certain that everything around us will soon be "smart", not just our phone!
4 At the moment, 3D TV and films are a new and exciting development. But what will the next
development be? Will TV become genuinely interactive? Or perhaps nobody will watch TV or films at all. Instead, they will put on a headset and find themselves a new world of virtual reality. These technologies,
already exist; come and try them, and get a taste of the future. The fun has only just started
5 We all know about superheroes from comic books and science fiction films. As science advances,
will some of their "sunpowers" be found in ordinary humans? Perhaps - if we are prepared to let technology
and your bodies mix. In this part of the exhibition, you can try out a bionic hand and let a mind-reading
computer explore your thoughts. You'll be amazed!
