Mệnh đề quan hệ không xác định (Non-defining Relative Clauses)

1. Khái niệm

Mệnh đề quan hệ không xác định (non-defining relative clauses) được sử dụng để bổ sung thông tin cho một danh từ trong câu, mà không làm thay đổi nghĩa chính của câu. Mệnh đề này cung cấp thông tin thêm về danh từ đó, và nếu mệnh đề bị bỏ đi, câu chính vẫn có nghĩa hoàn chỉnh.

2. Các đặc điểm chính

- **Cung cấp thông tin bổ sung:** Mệnh đề này không thay đổi nghĩa chính của câu mà chỉ thêm thông tin chi tiết về danh từ.
- **Có thể bỏ mệnh đề:** Nếu loại bỏ mệnh đề quan hệ không xác định, câu chính vẫn giữ nguyên ý nghĩa.
- **Sử dụng dấu phẩy:** Mệnh đề này luôn được ngăn cách bằng dấu phẩy.
- **Đại từ quan hệ không thể lược bỏ:** Trong mệnh đề quan hệ không xác định, đại từ quan hệ (who, which, whose) không được lược bỏ.

3. Đại từ quan hệ sử dụng trong mệnh đề quan hệ không xác định

- **Who:** Dùng để chỉ người.
 - Ví dụ: *My sister, who lives in Paris, is coming to visit us.* (Chị gái tôi, người sống ở Paris, sẽ đến thăm chúng tôi.)
- **Which:** Dùng để chỉ vật hoặc động vật.
 - Ví dụ: *The movie, which won several awards, is now available on DVD.* (Bộ phim, bộ phim đã giành nhiều giải thưởng, hiện đã có trên DVD.)
- **Whose:** Dùng để chỉ sự sở hữu.
 - Ví dụ: *Mr. Smith, whose car was stolen last week, is very upset.* (Ông Smith, người có xe bị đánh cắp tuần trước, rất buồn.)

4. Ví dụ

1. Mệnh đề quan hệ không xác định:

- *London, which is the capital of England, is a major financial center.*
(London, thành phố thủ đô của Anh, là trung tâm tài chính quan trọng.)
- *My grandmother, who is 80 years old, still enjoys gardening.*

(Bà tôi, người đã 80 tuổi, vẫn thích làm vườn.)

2. Loại bỏ mệnh đề quan hệ không xác định:

- Với mệnh đề: *The Eiffel Tower, which was built in 1889, is located in Paris.*
(Tháp Eiffel, được xây dựng vào năm 1889, nằm ở Paris.)
- Không có mệnh đề: *The Eiffel Tower is located in Paris.*
(Tháp Eiffel nằm ở Paris.)

5. Lưu ý

- **Dấu phẩy:** Luôn sử dụng dấu phẩy để ngăn cách mệnh đề quan hệ không xác định khỏi phần còn lại của câu.
- Không sử dụng “**that**” trong mệnh đề quan hệ không xác định.
- **Đại từ quan hệ không lược bỏ:** Không thể lược bỏ đại từ quan hệ trong mệnh đề này.

Tóm lại: Mệnh đề quan hệ không xác định giúp cung cấp thông tin thêm về danh từ mà không thay đổi nghĩa chính của câu, được ngăn cách bằng dấu phẩy, và đại từ quan hệ không thể bị lược bỏ.

VII. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions.

1.

The Amazon Rainforest

The Amazon Rainforest is the largest tropical rainforest in the world, covering about 6.7 million square kilometers. It is often referred to as the "lungs of the Earth" because it produces around 20% of the world's oxygen. The rainforest is home to an incredible variety of plants and animals. There are thousands of **species** of trees, including the Brazil nut tree and the giant kapok tree, which can grow up to 60 meters tall. The Amazon is also home to many animals such as jaguars, sloths, and countless types of birds.

The Amazon River, which runs through the rainforest, is the second-longest river in the world and is full of life, including piranhas, anacondas, and pink river dolphins. The rainforest plays a crucial role in regulating the Earth's climate, but it is under threat due to deforestation. This destruction is caused by activities like logging, mining, and

agriculture. Efforts are being made to protect this vital ecosystem, but much more needs to be done to ensure its survival.

1. Which of the following could be the best title for the passage?

- A. The World's Rivers
B. Animals of the Amazon
C. The Amazon Rainforest: The Lungs of the Earth
D. The World's Tallest Trees

2. The word "species" in the passage most closely means _____.

- A. Types
B. Sizes
C. Colors
D. Ages

3. The following are mentioned as part of the Amazon Rainforest, EXCEPT _____.

- A. The Amazon River
B. Brazil nut trees
C. Pink river dolphins
D. The Sahara Desert

4. The word "it" in the passage refers to _____.

- A. The Earth
B. The Amazon Rainforest
C. The River
D. Oxygen

5. Why is the Amazon Rainforest under threat, according to the passage?

- A. Because of climate regulation
B. Due to activities like logging and agriculture
C. Because of its large size
D. Due to the variety of species

6. What can be inferred from the passage?

- A. The Amazon is safe from deforestation.
B. The rainforest produces most of the world's food.
C. The Amazon is important for the Earth's climate.
D. The Amazon River is the longest in the world.

2.

The Earth's Atmosphere

The Earth's atmosphere is a layer of gases that surrounds the planet. **It** is composed mainly of nitrogen and oxygen, with small amounts of other gases. The atmosphere is **crucial** for life on Earth because it protects us from harmful solar radiation and keeps the planet warm enough to support life.

One of the biggest challenges facing the atmosphere today is pollution. Air pollution from factories, cars, and other sources releases harmful substances into the air, leading to health problems and environmental damage. If pollution continues to increase, it could have severe consequences for both humans and the environment.

1. What is the passage about?

- A. The layers of the Earth
B. The composition of the Earth's atmosphere
C. The importance of oxygen
D. The challenges facing the Earth's atmosphere

2. The word "crucial" in the passage most likely means:

- A. Unnecessary
B. Essential
C. Dangerous
D. Insignificant

3. What does the atmosphere protect us from?

- A. Rain
B. Harmful solar radiation
C. Wind
D. Animals

4. What is one of the sources of air pollution mentioned?

- A. Trees
B. Oceans
C. Cars
D. Soil

5. What could happen if air pollution continues to increase?

- A. Improved health
B. Increased oxygen levels
C. Severe consequences for humans and the environment
D. Decreased nitrogen levels

6. The word **it** in paragraph 1 refers to?

- A. atmosphere
B. earth
C. planet
D. layer

3.

The Beauty of Our Planet

Earth is a beautiful planet with **diverse** landscapes. Firstly, we have mountains that touch the sky, forests filled with trees, and oceans that are home to countless creatures. Secondly, many people enjoy visiting these places to appreciate nature. For example, national parks are popular spots for hiking, camping, and observing wildlife. In addition, the beauty of Earth also comes from its climate. Different regions have unique weather patterns, which affect the plants and animals that live there. Finally, protecting **these beautiful places** is essential. We must take care of our environment to ensure future generations can enjoy Earth's wonders.

1. Which of the following can be the best title for the passage?

- | | |
|-------------------------------------|----------------------------------|
| A. The Importance of National Parks | B. The Beauty of Our Planet |
| C. The Climate of Earth | D. Wildlife in Different Regions |

2. According to the passage, why do people visit national parks?

- | | |
|----------------------|---------------------|
| A. To study wildlife | B. To enjoy nature |
| C. To build homes | D. To work in teams |

3. The word **diverse** in paragraph 1 is closest in meaning to _____

- | | | | |
|-----------|-----------|-----------|--------------|
| A. unique | B. varied | C. simple | D. beautiful |
|-----------|-----------|-----------|--------------|

4. The phrase “these beautiful places” in paragraph 2 refers to

- | | | | |
|-----------|-------------------------|---------------------|-------------------|
| A. cities | B. mountains and oceans | C. weather patterns | D. national parks |
|-----------|-------------------------|---------------------|-------------------|

5. Which of the following statements is NOT true according to the passage?

- A. Earth has different types of landscapes.
- B. People only visit mountains for hiking.
- C. The climate affects the plants and animals on Earth.
- D. Protecting the environment is essential for future generations.

4.

Climate Change

Climate change is a critical issue facing our planet today. Firstly, it is caused by human activities, such as burning fossil fuels and deforestation. Secondly, **these actions** lead to an increase in **greenhouse** gases, which trap heat in the atmosphere. As a result, our planet is getting warmer.

In addition, climate change affects weather patterns around the world. Some regions experience more severe storms, while others face droughts. Finally, it is essential to take action to combat climate change. We can reduce our carbon footprint by using renewable energy sources and conserving resources.

1. Which of the following can be the best title for the passage?

- | | |
|---------------------------------------|--------------------------------------|
| A. The Importance of Renewable Energy | B. Climate Change and Its Effects |
| C. Deforestation and Its Causes | D. Weather Patterns Around the World |

2. According to the passage, what causes climate change?

- | | | | |
|-----------------|----------------------|---------------------|-------------|
| A. Solar energy | B. Natural disasters | C. Human activities | D. Wildlife |
|-----------------|----------------------|---------------------|-------------|

3. The word **greenhouse** in paragraph 1 is closest in meaning to _____

- | | | | |

- | | |
|---------------------------|---|
| A. using renewable energy | B. burning fossil fuels and deforestation |
| C. conserving resources | D. experiencing severe storms |

5. Which of the following statements is NOT true according to the passage?

- A. Climate change is a problem caused by human activities.
- B. Taking action can help combat climate change.
- C. Our planet is getting warmer due to greenhouse gases.
- D. Climate change does not affect weather patterns.

5.

The Importance of Forests

Forests are vital to the health of our planet. They provide oxygen, improve air quality, and help regulate the climate. Trees absorb carbon dioxide, which helps reduce the effects of climate change. Moreover, forests are home to a wide variety of wildlife, including birds, insects, and mammals. These ecosystems support biodiversity, which is essential for maintaining balanced natural environments.

In addition to their environmental benefits, forests also play a significant role in human life. **They** provide resources like timber, fruits, and medicinal plants. Furthermore, forests are important for recreation and tourism, attracting millions of visitors each year. Protecting forests is essential to ensure that future generations can enjoy their benefits. Therefore, it is **crucial** to support conservation efforts and promote sustainable practices.

1. Which of the following can be the best title for the passage?

- A. The Beauty of Mountains
C. The Importance of Forests
B. The Role of Oceans in Climate
D. The Diversity of Wildlife

2. The word biodiversity in paragraph 1 is closest in meaning to _____.

- A. variety of life
B. types of trees
C. animal habitats
D. natural resources

3. According to paragraph 2, forests provide resources such as _____.

- A. only timber
B. only fruits
C. timber, fruits, and medicinal plants
D. only recreational activities

4. The word crucial in paragraph 2 is closest in meaning to _____.

- A. important
B. unnecessary
C. easy
D. confusing

5. The word they in paragraph 2 refers to _____.

- A. forests
B. wildlife
