5. A. and                      B. but                      C. so                      D. yet

II. Read the following passage and do the tasks below. (1.25 pts)

Scientists believe that the smart home may be the home of the future. These homes may be of different shapes and sizes. They may also float on the water.

Scientists have designed the eco houseboat – a kind of house floating on the sea. But the houseboat is stable and doesn't rock heavily when there are big waves. It makes use of wave and solar energy to move it around and provide power. Solar panels are put on the top of the house to generate electricity.

A robot controls everything in the house and does the housework. In the kitchen, a smart oven can cook your favourite dishes. All these things will make our life much better.

A. Answer the questions.

1. What do scientists believe may be the home of the future?  
.....
2. Does the houseboat rock heavily because of big waves?  
.....
3. Where are solar panels put to generate electricity?  
.....

B. Choose the correct answer A, B, C or D to each question.

4. The eco houseboat will be \_\_\_\_\_.  
A. in the air                      B. in the ocean                      C. on the sea                      D. on big waves
5. Which of the following is FALSE?  
A. The future homes may be different in shapes and sizes.  
B. The houseboat use wind energy to move it around.  
C. A robot controls everything in the house.  
D. A smart oven can cook your favourite dishes.

PART D. WRITING (2.5 POINTS)
